ICAA-2023 Final Program

Virtual Conference

December 7, 2023

All the timings are in GMT \pm 00:00

12:20 - 12:30	Opening Ceremony
	Scientific Session
12:30 - 13:00	Title: Supergranulation And its Dynamical Effects Paniveni Udayashankar, Poornapragna Institute of Scientific Research, India
13:00 - 13:30	Title: Motion of Spinning Density Tensors in Fractal Clifford Spaces Magd E. Kahil, Modern Sciences and Arts University (MSA), Egypt
13:30 - 14:00	Title: Strange stars and their formation mechanism Mohamad ALAssiry, Syrian astronomical Association, Syria
14:00 - 14:30	Title: Some Grad-Shafranov solutions in General Relativity Orchidea Maria Lecian, Sapienza University of Rome, Italy
14:30 - 15:00	Title: Artificial Intelligence: An approach to the stability of the plasma Brunello Tirozzi, Sapienza University of Rome, Italy
15:00 - 15:30	Title: Conformal Invariance, Cosmological Particle Production and Imitation of Dark Matter Victor Berezin, Institute for Nuclear Research Russian Academy of Sciences, Russia
Posters Session	
Poster Presentations: 15:40 - 16:00	
P01	Title: Schwarzschild Radius for Electric Charge Yevhen Lunin, Ukraine
P02	Title: Theory of everything Alireza Sadrejamaly, Iran
P03	Title: Transit Depth Variations As A Method For Detecting Misaligned Exomoons Roksana Kulengowska, University of Lincoln, United Kingdom
